## Miss Lucy King and Albert Bramley Exchange Vows

A very pretty wedding was solemnized at Christ Church, Carbon on Sunday, September 5, when Miss Lucy King, daughter of Mr. and Mrs. James King of Carbon, was united in marriage to Mr. Albert Bramley, son of Mrs. Florence Bramley of Carbon, and the late Mr. Bramley, Rev. J.W. Wray officiated at the ceremony.

The bride, who was given in marriage by her uncle, Arthur Ironmonger of Hillcrest, looked charming in a floor-length gown of white broadened nylon and floor-length veil, and carried a bouquet of American Beauty roses. Her only attendant was a cousin, pendant with an amethyst stone, the gift of the groom.

The bridesmaid, Miss Edith King, youngest sister of the bride, wore a floor-length gown of blue taffeta with chapel veil to match, and carried a bouquet of deep pink carnations.

The groom was supported by his youngest brother, Gordon. Mr. F. Emery and Mrs. J. Dickinson acted as ushers.

During the signing of the register, Mr. Don Gordon sang "On Perfect Love."

The bride's mother chose for the occasion a blue crepe dress and accessories, and wore a corsage of white roses.

A reception for 35 relatives and friends followed at the bride's home. Mr. Leslie Bramley proposed the toast to the bride, to which the groom responded.

Following the reception the happy couple left for a honeymoon at Banff. For travelling the bride wore a grey suit topped with a black shortie coat with black and white accessories. On their return Mr. and Mrs. Bramley will reside in Carbon.

Out-of-town guests included Mr. and Mrs. B. Sinton, Calgary; Miss Mary Riley of Three Hills and the bride's uncle, Arthur Ironmonger, and cousins of Hillcrest.

## MEATLESS DAYS AT NANTON RIFLE CLUB

(The Nanton News)

Putting teeth into his contention that the Rifle Club eats too much, Spark Play Cummings cut the rations to the bone last Monday night. He served one course and three breads, and with extra thin rims and large holes. Not since Tanglefoot Armstrong and Ogo Parsony fed the multitude on a can of sardines, has the gun club had to get by on such meagre fare. Slim Armstrong was so weak from hunger that he had to be carried home. Al Nesbitt said it was bad enough to have to spend a whole evening with such scrubby company, and if he couldn't get a good square meal out of it, he would stay home in future.

Again the hundreds were scored by the Big Three: Bay Window Boomer, Wheat Germ Trull and Warble Fly Watt. Their steady performance in the face of adversity has marked them as real Baisley material, men who can be really counted on to shoot the bull. Charlie Folkard elbowed his way to the front in two sixth games, and President Read, who is anything but subtle, kindly suggested that it would be a good time to pay last year's dues. Sawfly Stapley claimed that after playing stuff at the gun club this year, he often wishes he were back on the farm where even the hogs have a certain amount of

## CARBON I.O.D.E. HONORS SEPTEMBER BRIDE-ELECT

The Carbon I.O.D.E. held a Pot Luck supper in the Legion hall on Wednesday evening in honor of Miss Lucy King whose marriage takes place this month. After a delicious supper the Regent, Mrs. Frank Emery, presented Lucy with a set of eight silver 5 o'clock teaspoons and a cold meat fork. The bride-elect very graciously thanked the members for the very beautiful gifts. The evening closed with the singing of "For She's a Jolly Good Fellow."

## HIDE DEMAND SAGS

Fewer cows are having their hides tanned because fewer Canadians are beating a path to the shoe stores, according to a Financial Post report. But more and more cattle are coming to the meat market. Therein lies a situation that may knock hide prices down, drop leather and shoe prices to a point where sales might begin to pick up again.

In the meantime packers, tanners, shoe manufacturers and shoe retailers are going cautiously on future commitments. Number of "wetings"—hides in first stage of becoming leather—down 30 to 40 per cent from last August. This follows a decline in shoe sales that registered a 16 1/2 per cent drop for the first six months of 1948 as compared with same period of last year. (80% of leather goes into shoes).

## LONG YEARS AGO

September 5, 1929

On Monday night a fairly heavy frost was experienced but no damage has been reported from this source.

The week and holiday was marred by a steady drizzle of rain and as a consequence threshing was suspended for a couple of days.

Miss Margaret Kenny is the new teacher in the Carbon school, having taken over supervision of Miss Paten's room.

School opened Tuesday and the pupils are beginning to get down to work after the holidays.

The following Carbon tennis players competed in the Drumheller open tournament on September 5: Mrs. Lang, Miss E. Braisher, Messrs. H. Longstaff, V. Hawkins, H. Brown, G. Peters, Al Braisher, W.A. Braisher, J. Fairbairn, J. Morgan, H. Edwards, A. Birch and H. Birch.

## Shoots Niagara Rapids In Second Barrel Trip

"Red" Hill, veteran riverman of Niagara Falls rode the Niagara River rapids Monday in a steel barrel. He ended his ivremile trip after twice becoming trapped at treacherous points in the river. Hill reached the steamship docks at Queenston four hours and 15 minutes after starting the course below Niagara Falls.

Hill's trip was halted temporarily shortly after the start when the barrel was caught in the Niagara whirlpool. He ended his ivremile trip after twice becoming trapped at treacherous points in the river. Hill reached the steamship docks at Queenston four hours and 15 minutes after starting the course below Niagara Falls.

Hill was freed again by his brothers, and the barrel drifted to the Queenston docks where it was picked up and towed ashore. He told spectators who waited for him that the trip was "much worse" than the one he made in 1945. The hammock in which he rides inside the barrel had broken and he was severely bruised.

The specially-constructed barrel was towed to the docks, and Hill, soaking wet, was helped out. He was immediately besieged by a crowd of autograph-hunters. Police, who had tried to prevent Hill from making the trip, made no attempt to arrest him.

This was too much for Harry Drelle, and he suggested that from then on, unless the players could not speak kindly to one another, they should not speak at all. The session closed with half an hour of silence.

Official scores were checked by Alex Anderson, who is the only member who can count above 50.

## PLAN TO KEEP A CHECK ON SPEED

More rigid enforcement of speed limits on Alberta highways was promised recently in an announcement from the Alberta highway traffic board at Edmonton. A squad of uniformed highway traffic board police, equipped with motorcycles, will patrol all main roads to check on observance of speed limits and other safety factors.

Two of the new speed enforcement squad will be stationed at Edmonton, two at Red Deer, two at Calgary and one at Lethbridge. They will augment the present staff of ten traffic board inspectors stationed in various parts of the province.

## Pays To Be Late Says Banker In California

Inglewood, Calif.—Two men entered the office of the Seaboard Finance Company recently, herded employees into a back room and demanded someone open the safe.

Only two persons know the combination. One of them, Manager Henry Goldseld, was late for work for the first time in months. The other, Mrs. Blanche May, had a flat tire on route to work. So the would-be robbers left empty-handed.

# So You're Coming To Britain!

## New Industrial Importance For Manitoba

English Writer Gives Advice To Touring Canadians

**Central Press Canadiana**  
LONDON, Eng. — There may be paradise in Heaven, but not in Britain. If you are one of the lucky 100,000 who have secured passage for a joyous vacation to Britain you have many interesting days in store. You are coming to a country which is still up to the neck in after-the-war effects, but a country which is steeped chock full of interest, tradition and kindly people. Come prepared for some hardships.

**Needle Art**

**COUNTRY BOY GETS ATLANTA WITH CITY SLICKER**  
ATLANTA, Ga. — A country boy from Cohutta, Ga., said he got even with a city slicker.  
Howard J. Hackney traded his motorcycle to a smooth-talking stranger for an automobile. The stranger disappeared with the motorcycle and police soon arrested Hackney for possession of a stolen car.  
Hackney cleared himself, but he vowed he would track down the man who swindled him.  
He and his wife figured their man would try to leave the state, so they began haunting bus stations in Jackson, Macon and Augusta.  
When they failed to find the stranger, they decided to try Atlanta. Hackney searched the streets by day and at night he and his wife watched the bus terminal.  
On the third night Hackney spotted his man at the station.  
He called police. They charged Gene R. Lester, 26, with suspicion of larceny of the auto and motorcycle.  
Lester and his wife got their color from the same substance—chromium oxide.

**WINNIPEG**—Manitoba, long considered by the rest of Canada an expanse of prairie suited only to agriculture, soon may take its place alongside her sister provinces in an industrial way.  
"There is not a single community in this province so barren in possibilities that at least one industrial plant could not be promoted with success," Hon. J. B. McDermid, minister of mines and natural resources said.  
He was commenting on a two-year survey, just completed, of the province's industrial potentialities by the bureau of industry and commerce.  
Started in 1947, the survey covered more than 70 towns and villages throughout the province. It is a "factual inventory of Manitoba's assets and liabilities," Mr. McDermid said.  
"It gives a true picture of conditions and possibilities of the various communities. For the first time there has been brought together in orderly form, up-to-date data which business men would need to aid."

Some of the survey's findings:  
Since 1940, 25 per cent. of the new industries established in Manitoba were located outside Greater Winnipeg.  
Industry in the province has grown from a \$150,000,000 business employing 24,000 persons in 1929 to more than \$350,000,000 in 1947 employing 40,000 persons.

**372 MILLION BUSHEL WHEAT CROP FOR CANADA**  
OTTAWA. — Canada's wheat crop this year, at present estimate, looks like being 30 million bushels better than last year's, but about 35 million less than the 1938-1947 average.  
DBS put out an estimate of 372 million bushels. First estimate for prairie spring wheat is 340 million bushels, against 319 millions last year.

**Guitar Inducement Fails To Keep Hired Help On Farm**  
MOOSE JAW, Sask. — Don Fleet, 32, of Dauphin, Man., pleaded not guilty in R.C.M.P. court to a charge of theft of a guitar which a Briercrest man purchased as an inducement to keep him down on the farm.  
Complainant was F. David Servos, Briercrest farmer, who valued the instrument as an inducement to keep Fleet working for him out of wages. However, the accused claimed it would have taken him too long to pay for it that way and he quit after working a week, to take employment at another farm. He said he intended to send the money to Servos later.

The first diadem, worn by the ancients instead of crowns, were made of silk wood and set with precious stones.

relaxing walk near the famous cliffs of Dover.  
For drama and music you are certainly coming to the right place. In Britain there is, this summer, something to suit everyone.  
There is a Shakespeare Festival of plays at Stratford-upon-Avon, birthplace of the dramatist. There is also a season of Shakespeare plays in Harrogate, the well-known spa in Yorkshire.  
On Aug. 22 the International Festival of Music and Drama takes place at Edinburgh, the capital of Bonnie Scotland. Symphony music will be played up and down the country by excellent orchestras.  
For those of you wishing a quiet evening with a friend to the model, there are many ballrooms, some with good restaurants attached.  
Travel in Britain is rather simple. It is a little country compared with Canada and travelling from one end to the other can be done in one day. The Tourist board has a word of advice to offer—bring your own towels and soap because of the shortage of these commodities over here.

One writer who recently visited Britain said she found the conditions on trains quite appalling. Well, the answer is simple. There are labor difficulties and at the present time there is a general retooling of railway stock which has had a rough time during the war.  
No visit to Britain would be complete without seeing many of the world famous buildings of historical interest. If you have as yet not obtained some literature from a travel bureau, I do advise you to get a booklet issued by the Travel Association entitled the British Isles. This is an excellent guide book to our famous structures.  
You should also try to obtain copies of Calendar of Events—1948, hotels, boarding houses and restaurants in the British Isles and the many well illustrated folders dealing with hiking, fishing, golf, racing, and so on, all issued by the Travel Association.

**Hats For Fall Wear Fit The Head Snuggly**  
The pillow hat at left, made with white feathers, silk and tassel, is given the design at right. It is made of cinnamon suede softly draped and designed to top the new short hair-do. "Tom Thumb Bonnet" is the name.

**"TURK" CROWNS "MISS NORTHERN ONTARIO"**—Turk Broda, Toronto Maple Leafs' center, crowns Winnie Moore of New Liskeard as "Miss Northern Ontario" at North Bay. Beauty show wound up town's old home week.—S.N.R. Photo.

**Vitamin Oil In Mixed Feeds Has Been Checked For Some Years**  
The vitamin fortification of commercial mixed feeds, especially poultry feeds, is common practice. It is important that vitamins be added in sufficient quantities to meet the needs of the animals or birds to be fed. But it is also important that the cost of the feeds is not increased unnecessarily through wasteful use of these costly vitamins, in order to produce economically, feeds which are nutritionally complete, manufacturers must therefore know the percentage of the vitamin supplements they use.

**Thinks Gold Standard Still Best System**  
VANCOUVER. — A Canadian-born college teacher, now a knighted director of the Bank of England, said he thinks the gold standard still the best medium for world exchange.  
Sir Edward Peacock was here inspecting the Hudson's Bay Co. stores and the Canadian Pacific Railway facilities. He is a senior director of both organizations.  
"Although international trade is scarcely functioning at all today and is seriously hampered by restrictions and regulations," he said, "gold is still the best standard of value."  
"Gold has the confidence of the world... no matter how efficient new monetary theories might be, they won't work until they get the world's confidence—and that takes scores of years."

**NATIVES HAVE MADE PROJECT IMPOSSIBLE**  
After 20 years of effort, French promoters have given up trying to grow silk in French Equatorial Africa. Mulberry trees were planted in the Ubangi district in 1928, and silk worms set in them. The trees thrived and so did the worms. They did that is, until the native workers on the plantation found that silk worms were a great delicacy. No amount of threats or bribes would stop their savaging this new dish. So the project has been abandoned.

**Word "Buddy" Saved Veteran From Suicide**  
NEW YORK. — Here's how a word saved a man's life.  
Patrolman Joseph Cone received a telephone call at the Snyder Ave. police station in Brooklyn.  
"I just wanted to let you know I'm going to commit suicide," a man's voice said.  
"Why do you think like that, Buddy?" Cone asked.  
"What do you mean, 'Buddy'?" the voice asked. "Were you in the army, too?"  
"Sure," said Cone. "I was in the 60th Infantry."  
"You were right beside us, then," the voice said. "I was with the Fourth Armored."  
By that time other police had traced the man. A patrol car saw him found Nathan Robbins, 26, in a drug store booth still talking about the war with Patrolman Cone. He was taken to Kings County Hospital for observation.

**Helpful Hints**  
When you use a dust mop, slide it over the floor without lifting it up, so you don't scatter the dust.  
Hang a bag of clothes pins on the line and move it along as you hang up the clothes to have yourself extra steps.  
You can get almost double the amount of juice from lemons and oranges by heating them before squeezing.  
Bed pillows may be washed without removing the feathers. Rip an opening about six inches long in both ends to allow the air to circulate; otherwise the pillows will float. Pin the openings together with safety pins, so you won't lose the feathers, and wash in lukewarm suds. When drying, shake well to restore the fluffiness to the feathers.

**Smile of the Week—**  
VERY GOOD REASON  
Two males were boasting about the merits and qualities of their respective motor cars, both typical worn, shabby old vehicles.  
One of them said "Day's just one reason why Ah can't run my dear old 'mule' 200 and a hound."  
"Ah what's dat reason?" asked the other.  
"The distance is too long to go to shaveness of de time," said the first.

Precious stones were first introduced to the western world through the conquests of Alexander the Great in the east.

## WORLD HAPPENINGS

### BRIEFLY TOLD

Secretary-General Trygve Lie has asked for \$23,469,587 to operate the United Nations in 1949.

Saskatchewan, Canada's chief flower seed growing province, produced 20,000,000 lbs. in 1947.

The United Nations economic and social council voted to wind up the UN appeal for children by year-end. Collections thus far have reached \$18,000,000.

Cyril Kirby Toren of Vancouver won the western Canada theatre conference's 1948 playwrighting competition. Prof. Kenneth Gordon, conference secretary-treasurer, announced.

The Fraser river salmon catch this year will not meet earlier expectations, fishermen predicted. A spokesman said the anticipated 1,000,000 salmon now will not likely exceed 600,000 to 700,000.

When a baseball from the park across the street smashed her front window, a Vancouver housewife objected. She got this advice from the ball players: "Move your house back—it's in the way."

All poultry meats and eggs sold off Canadian farms or consumed on the farms, including eggs produced by urban and rural dwellers, were valued at more than \$235 million in 1947. In 1946, the comparable figure was \$203 million.

A British Overseas Airways Corporation Liberator recently was compelled by the weather to climb 15,000 feet to contact an air tanker of Flight Refueling Limited. At this record height the plane took on 600 gallons of fuel.

## No Shortage Of Turkeys

OTTAWA.—Canada's supplies of turkeys are normal, officials of the agriculture department said.

They were commenting on a Washington report that turkey supplies in the United States will be scarcer and prices higher during the November Thanksgiving season.

Canada now has about 3,300,000 pounds in storage, officials said, with new supplies expected to come on the market in quantity in late fall. Canadians do not lean heavily to turkeys as the Thanksgiving bird, as in the U.S. Here, the big market is at Christmas.

Considerable quantities of turkey will be available for export to the U.S. It was stated, and some now are moving. Dressed birds are going out in carload lots, and British Columbia and central Canada also are shipping out sizeable numbers of birds for breeding.

## KITCHEN MEDITATIONS

### Harvest Thanks

By JANE DALE

My grateful heart sends forth to Thee in great thankfulness for food.

A song of thanks for food stored in store from field and tree safely come to me.

May I abundant blessings share With Thy poor people everywhere.

My grateful heart sends forth to Thee A prayer for all humanity.

Regardless of their race or creed, May they from hunger soon be freed.

Upon them, Lord, Thy blessings pour And give them too, abundant store.

## THIS CURIOUS WORLD

By WILLIAM FERGUSON

HUMMINGBIRDS ARE LESS THAN FOUR INCHES IN LENGTH AND WEIGH ONLY A FEW GRAMS, BUT THEY ARE AS FAST AS A CHEETAH.

THEY ARE THE ONLY BIRDS THAT CAN FLY BACKWARDS.

THEY ARE THE ONLY BIRDS THAT CAN FLY UPWARDS.

THEY ARE THE ONLY BIRDS THAT CAN FLY DOWNWARDS.

THEY ARE THE ONLY BIRDS THAT CAN FLY IN A CURVE.

THEY ARE THE ONLY BIRDS THAT CAN FLY IN A STRAIGHT LINE.

THEY ARE THE ONLY BIRDS THAT CAN FLY IN A CIRCLE.

THEY ARE THE ONLY BIRDS THAT CAN FLY IN A SQUIGGLE.

THEY ARE THE ONLY BIRDS THAT CAN FLY IN A ZIGZAG.

THEY ARE THE ONLY BIRDS THAT CAN FLY IN A WAVE.

THEY ARE THE ONLY BIRDS THAT CAN FLY IN A SPIRAL.

THEY ARE THE ONLY BIRDS THAT CAN FLY IN A SQUIGGLE.

THEY ARE THE ONLY BIRDS THAT CAN FLY IN A ZIGZAG.

THEY ARE THE ONLY BIRDS THAT CAN FLY IN A WAVE.

THEY ARE THE ONLY BIRDS THAT CAN FLY IN A SPIRAL.

## Attended With The Alberta Editors

Many of the editors attending the Alberta Weekly Newspaper convention recently held at Calgary took their wives and families with them, and while they were in sessions tours were arranged for the ladies to some of Calgary's industrial plants, and from reports there were immensely enjoyed. The above picture was taken during a tour.

## Metal Discovery Means Considerable Development In Peace River Area

EDMONTON.—Discovery of substantial deposits of lead, zinc and other base metals in the Great Slave Lake area would mean considerable development to the Yellowknife and Peace River districts and northern British Columbia, Resources Minister Mackinnon said.

The two firms have reserved a large area on the north shore of Great Slave Lake near Hay River, on which they propose to spend a large sum in the next three years.

Success of the program would mean the construction of a large smelter and extension of railway facilities, Mr. Mackinnon said. It would also lead to power development and would provide a market for coal deposits in the Peace River area and northern British Columbia.

Interviewed on his return from a visit to Yellowknife, Mr. Mackinnon said much would depend on the success of a recently-announced exploration program in the area by the Consolidated Mining and Smelting Company of Canada and Ventures Ltd.

## DAWSON FACES DEARTH OF SUPPLIES THIS WINTER

DAWSON, Y.T.—This rich gold-producing area faces a serious dearth of food and fuel this winter unless supplies can be brought in before ice halts river transport in about 40 days.

B.C.-Yukon Chamber of Mines has appealed to Transport Minister Chevrier to help relieve a situation regarded as a serious threat to continued development of this part of the territory.

No coal has reached here from the stock of thousands of tons at the federally-financed Tantalus Bluff mine at Carmacks. Woodpiles are dangerously low.

Stocks of gasoline and Diesel oil are reduced to rationing point at the peak of mining companies' operating season.

In a wire to the transport minister, H. W. Frith, chamber of mines secretary, asks immediate investigation into Yukon transport by a commission or transportation expert—Vancouver Province.

## GEMS OF THOUGHT

**FAITH**  
Faith is the substance of things hoped for, the evidence of things not seen.—Hebrews 11:1.

Faith does nothing alone—nothing of itself, but everything under God, by God, through God.—Boulogne.

The steps of faith fall on the seeming void, but find the rock beneath.—Whittier.

A saving faith comes not of a person, but of Truth's presence and power. Soul, not sense, receives and gives it.—Mary Baker Eddy.

While reason is puzzling herself about the mystery, faith is turning it into her daily bread and feeding on it thankfully in her heart of hearts.—Frederick B. Huntington.

Nothing in life is more wonderful than faith—the one great moving force which we can neither weigh in the balance nor test in the crucible.—Harvey Cushing.

**LEAST FERTILE**  
Tropical soils in general are among the world's least fertile because they are subject to erosion by torrential rains.—2795

## Artificial Kidney Being Developed

CHICAGO.—Three researchers reported on developments of an artificial kidney to aid persons whose kidneys—vital in elimination of body wastes—do not function properly. They are Dr. Gordon Murray, Dr. Edmund Dolmore and Newell Thomas of Toronto. They said that with their machine they reproduced "the function of the kidney and (it) will remove any, if not all of the toxic substances," which frequently cause death.

Enough electricity is used in making a ton of aluminum to keep a 40-watt light burning for 68½ years.

## OUR CROSSWORD PUZZLE

1 Across: 1. A small bluebird. 2. A small bluebird. 3. A small bluebird. 4. A small bluebird. 5. A small bluebird. 6. A small bluebird. 7. A small bluebird. 8. A small bluebird. 9. A small bluebird. 10. A small bluebird. 11. A small bluebird. 12. A small bluebird. 13. A small bluebird. 14. A small bluebird. 15. A small bluebird. 16. A small bluebird. 17. A small bluebird. 18. # World News In Pictures

**FRUIT FARMER ON WAY TO MARKET, HALTED BY DEATH**—Twisted wreckage of his truck lies beside short-covered body of George Campbell, 12, Jordan district fruit farmer, after C.N.R. freight hurled truck 60 feet down track at Vineland, Ont. Mr. Campbell, seen just as he was on way to market with a load of peaches.—S.N.S. Photo.

**EEF' BY TRUCKLOADS GO TO U.S. AS EMBARGO LIFTED**—One steer takes a last look at Canada as customs agent R. McCann and driver Max Petchenky inspect truckload of cattle going over border at Windsor to U.S. market. Truck after truck headed for border with choice Canadian beef after embargo was lifted.—S.N.S. Photo.

**FIVE POUND TROUT FIVE YEAR RECORD**—A proud fisherman displays the five-pound, one-ounce, speckled trout he pulled out of Black Lake, near Mt. St. Patrick. It is said to be the largest taken from the lake in five years.—S.N.S. Photo.

**KILLED BY BULLET**—Fleeing from police in Hamilton, Ont., Frank Wasm, of Winnipeg and Toronto, was killed by a police bullet in a chase through city streets in which at least 10 shots were fired. He dropped with a bullet in his back and died before reaching hospital. He was wanted for questioning in connection with a \$12,000 Ottawa, Ont., robbery.—S.N.S. Photo.

**EVICTED FAMILY GIVEN SHELTER**—Evicted from army barracks by the city of Toronto, the family of Archibald Widdowson was given shelter in this tool hut by a visiting Alberta oil driller. Hut sheltered grandmother, Mrs. H. King, the parents, their three children.—S.N.S. Photo.

**ANOTHER HIGHWAY ACCIDENT VICTIM**—Body of Mrs. Alexander Blake, North Plainfield, N.J., lies beside wreckage of car wedged against badly-damaged truck after collision on No. 2 highway near Bowmanville, Ont. Her husband, the driver, suffered minor hurts. Police said car veered from traffic line.—S.N.S. Photo.

**CANADIAN BOYS EXHIBIT MODEL PLANES IN U.S.**—Five Canadian model plane enthusiasts are seen at the U.S. Naval Air Station, Olathe, Kan., where they arrived for the 17th national model airplane meet. From left, Alan Leslie, Walter Gash, Dave Norton, a station officer; Norman McKay and Don Turner of Toronto Quintet displays model planes.—S.N.S. Photo.

**READY HOME DESIGN WASHINGTON TOPPER**—Dressed up by a Washington designer, this chapeau topped by a miniature house of modern design, is modelled by Jo Metto. Called the "national home week hat", it was created for the event, Sept. 5-11, sponsored by the National Association of Home Builders in the U.S.—S.N.S. Photo.

**WHAT AN OCCASION FOR TEARS, MISS CANADA**—So happy because she was chosen "Miss Canada" in Hamilton, Ont., pretty Betty Jean Ferguson of Halifax, sheds real tears during the crowning ceremony. "Oh dear," she said, after being showered with gifts and awards. "It's like Christmas Eve"—S.N.S. Photo.

**FIRE CAUSES 18 FIREMEN CASUALTIES**—Smoke victim, Fireman Healey is given a drink by a volunteer worker. Fire was controlled in four hours but firemen were on job all night. \$150,000 fire in the S. S. Kresge.

store on main street of Peterboro sent 18 firemen to hospital before it was brought under control. Seven were released shortly and most of the casualties were victims of exhaustion or smoke. Here firemen battle the night-long blaze.—S.N.S. Photo.

### LITTLE ITEMS OF LOCAL INTEREST

Mr. and Mrs. Archie McLeod  
and sons spent the week end at  
Banff.

Mr. and Mrs. Dick and family  
of Morin spent the week end at  
the home of Mr. and Mrs. J.E.  
Adams.

Miss Lucia Kalapaca visited  
over the holiday week end at the  
home of Mr. and Mrs. G. Smith.

Mr. and Mrs. Francis Poxon  
and Mr. and Mrs. Morris Switzer  
holidayed at Banff over the week  
end.

Mr. and Mrs. Joe Haffernan and  
family were week end guests at  
the home of the latter's parents,  
Mr. and Mrs. Bill Reid.

Rev. Way has returned follow-  
ing a two weeks' holiday spent at  
Calgary and other Alberta points.

Mr. Tom Lang has returned  
home after holidaying at the Pacific  
coast.

Mr. and Mrs. Don Martin visited  
in Calgary over the week end.

Miss Isabel Gouldie, who is  
teaching school at Red Deer, spent  
the week end in Carbon.

Miss Joan Heath visited over the  
week end with her mother,  
Mrs. Fannie Heath.

Mr. and Mrs. B. McCullough,  
Mr. Pete Gobel and Lawrence  
Gobel spent Sunday visiting with  
friends in Carbon.

Miss Neva White left last  
Thursday for Hanna, where she  
will attend school for the coming  
term.

daughter of Calgary are visiting  
at the home of Mr. and Mrs. Frank  
Emery.

Charlie Nash, who is employed  
in Calgary, is spending a two  
weeks' holiday in Carbon at the  
home of his mother, Mrs. K. E.  
Nash.

### Britain Buys Canadian Jersey Cattle

"Bringing coals to Newcastle"  
was paralleled recently when four  
Canadian-bred Jersey cattle, one  
bull and three in-calf heifers were  
sold to English buyers. The United  
Kingdom Ministry of Agriculture  
recognizes the high quality of Cana-  
dian Jersey cattle and allocated  
\$294,000 for the shipment, which  
included a consignment of Holstein  
cattle for the British market.

### SASKATCHEWAN CROP LIGHT

The Saskatchewan Wheat Pool  
crop report for the week ending  
August 15, places the crop condi-  
tion figure for wheat in this  
province at 85, on an estimated  
acreage of 13 1/2 million. A crop  
condition figure of 100 would rep-  
resent an expected yield of 15 bu-  
shels per acre. This would place  
the present expected yield at 172,  
000,000 bushels.

### A JOB GETTER

Junior, aged 14, set out to get a  
job and asked the local village  
wit for one.

"What can you do, son?" asked  
the wise guy.

"Almost anything," replied ju-  
nior.

"Wise Guy," asked Mr.

"Yes, sir," replied Junior, "if  
you'll screw it in the vise for me."

The southwest corner of Alberta  
is likely to produce a wheat crop  
of 27 1/2 bushels to the acre, high-  
est of any crop district in the pro-  
vince.

### TUBERCULOSIS IS RARE IN ALBERTA CATTLE

Alberta cattle are virtually free  
of tuberculosis, states Agriculture  
Minister Dave Ure.

More than 250,000 cattle have  
been tested in a recent survey,  
showing tuberculosis is only 16 of  
1,000 head, according to a Leth-  
bridge Herald report.

Some areas of U.S. show as  
many as 240 cattle in 1,000 affected,  
said Mr. Ure.

### Legal

### Re Home Assurance Company of Canada

Policy Holders of HOME AS-  
SURANCE COMPANY OF CAN-  
ADA are hereby advised that on  
Monday the 2nd day of August at  
the hour of 11:30 o'clock in the  
forenoon the presiding Judge in  
Supreme Court Chambers, Calgary,  
Alberta, granted an Order for the  
administration of the deposit of  
HOME ASSURANCE COMPANY  
OF CANADA made with the Pro-  
vincial Secretary for the Province  
of Alberta, pursuant to the Alberta  
Insurance Act and appointed A.G.  
Burton, resident party of Peak,  
Marwick, Mitchell & Company, 41  
Canada Life Building, Calgary, as  
Receiver.

Policy Holders are further her-  
by notified that it is considered as  
a matter of law that policies of  
HOME ASSURANCE COMPANY  
OF CANADA are ineffective after  
making of the aforesaid Order and  
that no person is entitled to share  
in the proceeds of the deposit with  
respect to claims for losses occur-  
ring subsequent to the time the  
said order was granted.

All Policy Holders of HOME  
ASSURANCE COMPANY OF  
CANADA are further notified to  
file with A.G. Burton, 41 Canada  
Life Building, Calgary, Alberta, by  
the 1st day of October, A.D. 1948,  
particulars of all outstanding con-  
tracts of, and claims against  
HOME ASSURANCE COMPANY  
OF CANADA, duly verified by  
Statutory Declaration.

A. G. BURTON,  
Receiver

**CHURCHMEN SAIL**—When the  
Canadian Pacific liner Empress of  
Canada cleared from Montreal re-  
cently for Liverpool she carried a  
group of Anglican and Episcopalian  
bishops who will attend this  
summer's Lambeth Conference in  
London. In the picture are shown

left to right, front row: Bishop  
Lyons of Ontario, Bishop Dixon of  
Niagara, Bishop Dixon of Nova  
Scotia, Primate of the Church of  
England in Canada: Bishop Car-  
penter of Alabama and Bishop

Beverley of Toronto. Back row:  
Bishop Hallman of Saskatoon, Bi-  
shop Jefferson of Ottawa, Bishop  
Sovereign of Athabasca, Bishop  
Lofthouse of Kewatin, Bishop  
Kinsolving of Arizona and Bishop  
Moorhead of Fredericton.

### NEW USE FOR BUCKWHEAT

The United States Agricultural  
Research Administration has an-  
nounced that green buckwheat has  
been found to be a source of a  
recently discovered important drug  
called rutin. The drug, used in the  
treatment of hemorrhagic diseases,  
is being made in the United States  
by 15 manufacturers from buck-  
wheat leaf meal for the production  
of which six processors are  
drying buckwheat. The 1948 crop  
for this purpose, is estimated to  
be 50 thousand acres, representing  
a cash income of \$2 million to the  
farmers.

### FREE PETS FROM FLEAS

Dogs may be freed from fleas  
by rubbing 10 per cent DDT pow-  
der through their hair. Cats, how-  
ever, should not be treated with

DDT preparations as they lick  
themselves and may swallow suf-  
ficient to make them ill. Preparations  
containing pyrethrum or ru-  
tenone are effective, and safe to  
use on cats.

Your separator, running at ex-  
tremely high speed, needs a  
special oil to maintain steady  
lubrication and prevent wear and  
the resulting bowl vibration.  
Imperial Cream Separator Oil is  
scientifically made to protect the  
close-fitting bearings of your  
separator in summer heat and  
especially in winter cold when  
ordinary oils tend to congeal.

Imperial Penetrating Oil is  
especially useful in overhaul  
jobs for loosening rusty nuts  
and bolts. It is also valuable  
for curing squeaks and stiffness  
in automobile, wagon and car-  
riage springs. It works its way  
between tightly fitting metal  
surfaces, dissolves gummy sub-  
stances and gives real lubrica-  
tion.

Powdered mica is one of the  
ingredients in this high quality  
grease that provides smooth  
operation for wagons,  
spreaders, hayloaders,  
etc. A thin film is effective  
and long lasting—lu-  
bricating even when the  
spindle appears dry.  
When you buy axle grease  
be sure it's "Mica".

These and numerous other  
Imperial products needed on the farm are  
available from your Imperial  
Oil dealer or agent.
